

Diana Wallace

Technical Documentation Manager | Developer Experience, Docs-as-Code & API Documentation |
Enterprise Program Leadership

dcwallace9900@gmail.com · Atlanta Metropolitan Area · diana-wallace.com · LinkedIn

Professional Summary

Senior technical documentation and developer experience leader with 8+ years directing API and developer documentation, docs-as-code workflows, and cross-functional delivery for Fortune 500 telecommunications and SaaS accounts. Builds AI-assisted documentation workflows that speed drafting and hold consistency at scale, always with human review for accuracy, while working docs-as-code end to end. Operates as a matrix leader, coordinating engineering, testing, and documentation workstreams, to stabilize Tier-1 enterprise relationships and accelerate contract delivery. Combines a formal background in learning science with deep technical fluency to translate complex engineering work into enterprise-ready outcomes.

Core Competencies

- **Program Leadership:** Cross-Functional Delivery, Matrix Leadership, Client Liaison, Stakeholder Alignment
- **Technical Enablement:** API & Developer Documentation, Docs-as-Code, Developer Experience (DX), ADA/WCAG Standards
- **AI-Enhanced Documentation:** AI-Assisted Workflows, Prompt Engineering, Docs-as-Code Automation, Quality Review
- **Content Systems & Analytics:** Documentation Governance, Information Architecture, Enterprise Web & SEO, GA4 Analytics

Professional Experience

Apkudo | Mar 2025 – Present · Remote

Technical Documentation Manager

Device intelligence and supply chain platform serving Fortune 500 telecommunications clients.

Functioning as technical program lead and primary client liaison for Tier-1 telecommunications accounts, translating client requirements into actionable delivery plans across Development, QA, and Documentation.

- **Directs Cross-Functional Delivery:** Cleared historical delivery backlogs and aligned client expectations with Development, QA, and Documentation teams, relying on matrix leadership rather than formal management authority, to establish Customer Readiness Frameworks for Tier-1 accounts.
- **Drives Revenue-Enabling Documentation & Client Engagement:** Built client-facing pitch decks, current-state and future-state requirements, and process documentation for a Tier-1 telecommunications client's inventory optimization platform initiative, scoping the work and justifying contract value, then served as subject matter expert in live pitch sessions to close the engagement.
- **Governs Enterprise Workstreams:** Manages a portfolio of 20+ concurrent enterprise workstreams, reporting directly to the COO to align program strategy with executive business priorities.
- **Builds AI-Enhanced Documentation Workflows:** Designs and deploys AI-assisted documentation and program workflows, with human-in-the-loop review for accuracy, to accelerate delivery across all active workstreams while holding quality and consistency at scale.
- **Enforces Security & Compliance:** Maintains ISO and ISMS security standards across device intelligence initiatives for Tier-1 telecommunications partners.
- **Builds Organizational Infrastructure:** Develops headcount justification, organizational roadmap, and performance rubrics to support Apkudo's ability to scale its Fortune 500 client base.

84.51° (Kroger) | Mar 2023 – Jul 2024 Remote

Developer Experience (DX) Lead & Senior Technical Writer

Data science and analytics subsidiary of Kroger, powering retail media and shopper intelligence.

- **Led Developer Experience Strategy:** Directed documentation strategy for the Kroger Ad Platform, including developer portals and SDK guides, improving developer usability by 25%.
- **Directed Enterprise Tooling Decisions:** Led cross-functional vendor evaluation and selection for enterprise knowledge base tooling, managing budget constraints and presenting recommendations to engineering leadership.
- **Championed Accessibility Compliance:** Drove ADA/WCAG initiatives across the documentation ecosystem, raising content accessibility and inclusivity scores by 40%.
- **Mentored & Standardized:** Developed performance rubrics, defined documentation standards, and mentored junior writers to ensure consistency across quarterly release cycles.

Blackbaud | Sep 2021 – Mar 2023 Remote

Cloud Migration Strategist & Technical Writer

Leading cloud software provider for the nonprofit sector, serving organizations globally.

- **Led Customer-Facing Migration Strategy:** Directed the customer education initiative for a security-driven migration from desktop-based project management to the cloud, replacing a legacy system with known security vulnerabilities, and built blog posts, how-to guides, and adoption content to drive customer uptake of the new platform.
- **Engineered Migration Efficiency:** Partnered with the engineering team to develop Python scripting that replaced manual, individual customer migrations with a faster, team-based process, reducing customer transition time by 30%.
- **Modernized Documentation Workflows:** Implemented docs-as-code principles across the developer portal and API ecosystem, improving content discoverability and streamlining engineering workflows.
- **Established Cross-Functional Standards:** Built contribution guidelines for engineering teams and self-serve learning pathways for the API ecosystem.

Argo AI | Mar 2018 – Sep 2021 Remote

Technical Writer

Ford and Volkswagen-backed, \$12.4B SAE Level 4 autonomous vehicle company.

- **Authored Critical Systems Documentation:** Developed API documentation and internal onboarding programs for perception, localization, and sensor fusion engineering teams.
- **Supported Enterprise Deployments:** Partnered with robotics teams to document safety and testing procedures supporting self-driving vehicle deployments with Ford, Volkswagen, and Lyft.

Education & Certifications

- **B.A. in Education, Magna Cum Laude** | University of North Florida — ESOL Endorsement; focus on learning theory, cognitive load, and curriculum design
- **Certified SAFe 5 Practitioner** | Scaled Agile, Inc. — Enterprise Agile Program Management
- **Full-Stack Web & Mobile Development** | NuCamp Coding Bootcamp — HTML, CSS, JavaScript, React, APIs
- **AI for Everyone** | DeepLearning.AI — Enterprise AI Strategy & Workflow Automation
- **Instructional Design Essentials** | Coursera — Adult Learning Science & Curriculum Architecture

Tools & Technologies

- **Program & Project Management:** SAFe/Agile, Jira, ClickUp, Smartsheet, Lattice, Microsoft Teams
- **Strategy & Analytics:** Data & Learning Analytics (Looker, Google Analytics, CSAT, NPS, Time-to-Value), Data-Driven Content Strategy
- **Enterprise Knowledge Management:** MadCap Flare, Confluence, SharePoint, Markdown
- **Learning & Content Production:** Enterprise LMS (Docebo), Digital Adoption Platforms (DAP - WalkMe), Articulate 360, Camtasia, Snagit
- **CRM & Customer Success Integrations:** Microsoft Dynamics 365, HubSpot
- **Development & AI:** Claude Code, ChatGPT, Gemini AI, NotebookLM, RESTful APIs, JSON, XML, HTML/CSS, JavaScript, Git/GitHub, CI/CD, Azure DevOps
